

ADRIAN WILLIS SASUMAN

TECHNICAL VIRTUAL ASSISTANT

Contact: +639089867190 Address: Toril, Davao City, Philippines
Mail: uradrianwillis@gmail.com

Professional Summary

Virtual Assistant and Technical Support professional with 5 years of experience supporting remote and in-office teams. Skilled in WordPress development, Keap CRM automation, Zapier integrations, social media and short-form video production, and complex calendar and appointment management. I design and configure WordPress sites, manage Keap CRM automations, oversee social media and video content, and handle complex appointment scheduling to improve operational efficiency.

Professional Experience

Freelance Graphic Designer/Technical Support
Love Yoga
July 2024 - January 2026

- Delivered assets optimized for social sharing and print, improving brand recognition and cross-channel consistency.
- Designed a cohesive brand identity, including logo, color palette, and typography; produced scalable vector assets for web and print.

Social Media Manager
Credit Card Company (Part-time)
August - November 2025

- Maintained brand reputation by enforcing moderation guidelines and removing harmful content; escalated sensitive issues to leadership to protect customer trust.
- Implemented content scheduling and reporting to sustain steady engagement and reduce manual posting time.

Virtual Assistant / CRM Automation Expert / Web Designer
Outsourced Doers | Inner Eye Life Coaching | SpiritedGrowth
July 2016 - January 2020

- Automated lead workflows using Keap and Zapier to eliminate repetitive tasks and accelerate lead follow-up, improving response consistency for clients.
- Launched WordPress course portals (LearnDash, Memberium) and configured hosting, delivering client sites ready for enrollment and reducing time-to-launch.
- Optimized executive scheduling with Acuity Scheduling and Google Calendar, reducing booking conflicts and improving daily availability for leadership.
- Produced short-form video and graphics for social channels, increasing content output while maintaining brand consistency.

Key Achievement

- Reduced manual follow-up** by implementing CRM automations that streamlined lead nurturing and decreased repetitive data entry.
- Improved calendar reliability** through centralized scheduling processes, lowering the incidence of double-bookings and missed meetings.
- Delivered on-brand websites** and course portals that shortened client launch timelines and improved user experience.
